## About This Game

It's been too long since you've seen your best friend Kira, so of course you jumped at the chance to visit after she invites you to scenic Baumholder for the weekend. You've barely arrived and met her new husband Victor when a freak blizzard sets in, ruining a perfect summer day. When a dark tower of ice rises from the city square, ice giants rain down on the streets, freezing everyone and everything in their path. Who is controlling them and what do they want? Work together with Victor to save Kira and survive the deadly cold.
