*What is "The Charming Empire"?

"The Charming Empire" is a dating simulation game set in the Taisho Roman era of Japanese history. Each scenario is fully voiced, featuring the work of voice actors such as: Tetsuya Kakihara, Toshiki Masuda, Takuya Eguchi, Toshiyuki Toyonaga, Kenjiro Tsuda and more. Teikoku Kaleido's detailed and gorgeous artwork is illustrated by Mitsuya Fuji, who currently creates artwork for other mobile games and CDs.

*Story

Our heroine, Amane Kosaka, was living a simple yet happy life in the countryside until one day she was suddenly taken away to live in the empire, summoned by her brother Soshi Amazaki -- the current ruler. Though she was unaware of the underlying circumstances, she finds herself brought to this lively and palpable central city.

Living in the immaculate royal palace, our heroine comes to learn that the empire might not be as joyful as it seems.

Her brother is no longer the gentle man she once knew...
A corrupt organization secretly runs things behind the scenes...

The heroine's fate guides her down the path of love.

*Character Introductions

Toki Tanba CV: Tetsuya Kakihara

Toki owns a cafe in the city that serves tea and various confections. He is particularly kind to women and loved by all of his customers. But behind that kind smile, however...

“Sorry for the wait. This here is the pride of the cafe, our signature baumkuchen.”

????????????????

Kei Yoshimine CV: Toshiki Masuda
The captive former prince

Kei is the heroine's private tutor.
The prince of a fallen country, he is now a captive of the empire.
Perhaps because of those circumstances, he treats the heroine harshly.

“My name is Kei Yoshimine. Starting today I'll be teaching you foreign language and dance. Any questions?”

????????????????

Koichiro Sera CV: Takuya Eguchi
The reticent bodyguard

Sera is the heroine's unsociable bodyguard.
Not a minute goes by where Sera isn't devoted to his duties, and he also has a stubborn side.
He bears distrust towards Lord Soji's dictatorship.

????????????????

Soshi Amazaki CV: Kenjiro Tsuda
The aloof lord

Soshi holds the most powerful seat in all the empire.
Only trusting himself, he rejects the opinions of others as he continues his dictatorship agenda -- breeding animosity amongst the people.

I always thought that a 'Normal Ending' was supposed to be at least semi-happy. Apparently not for this one. And the 'Good Ending's didn't make up for the poorly developed stories on 3 of 5 characters. I really liked the stories for Tanba and Kai with the Happy Endings actually being happy. Soshi's story was terrible but I liked the Happy Ending. ALL of the Normal Endings were terrible. Overall, not worth 30 bucks. Wait for a good sale if your curious.
